

IRIX V - DIGITAL STONE

Technical Data Sheet

TDS EN_IRIXV_032021

TRANSPARENT DIGITAL STONES

IRIX V is part of the Digital Stone Series: particularly translucent, it has been created to meet the market needs of the fashion and fashion accessories industries. Ideal for 3D printing of faceted stones and translucent ornaments without geometric shape limits.

THE IRIX SERIES

The IRIX series includes all the materials suitable for the direct printing of jewellery models and fashion accessories. IRIX V was developed exclusively for DWS jewellery range 3D printers.

HINTS FOR DESIGN
